FIND YOUR ONE-LINE IDEA

HACKPACK Section 4

Start from the six directions, the NEAR AI team's use cases (check the hackpack), or anything you want. For each prompt below, take a photo and send it to your LLM, or copy it from the hackpack. 10 minutes with the AI, then 15 with people. Keep private details out of public chatbots.

YOUR NAME _____

1

5 MIN · WITH YOUR LLM

Brainstorm three ideas

PROMPT

I have 4 hours at a private AI hackathon, building on NEAR AI Cloud (models run in TEEs, so prompts stay private). Ask me 5 short questions, one at a time, about my skills and the sensitive-data problems I care about. Then suggest 3 ideas I can demo by 4:30, each fitting a direction (Healthcare & Personal Data, Finance & Legal, AI Agents, Agentic Commerce, Community & Nonprofits, Business Automation) or anything I'm excited about.

A

B

C

2

5 MIN · WITH YOUR LLM

Pick one and say it in one line

PROMPT

Take idea [A / B / C] and write it as one sentence of 20 words or fewer: "For [who], [project name] [does what], and it needs private AI because [why]." Give me 3 versions so I can pick one.

MY ONE LINE

_____

_____

3

10 MIN · WITH THE PEOPLE AROUND YOU

Share it and get feedback

Read your line to three people near you. Ask: is it clear? Would you use it? Do you want to build it with me?

NAME	WHAT THEY SAID	JOIN?	WHATSAPP / X
		□ yes □ maybe	
		□ yes □ maybe	
		□ yes □ maybe	

4

5 MIN · LOCK IT IN

Sharpen the line and form your team

PROMPT

Here is my one line: [line]. Here is the feedback I got: [notes]. Rewrite the line so it is clearer, still 20 words or fewer.

FINAL LINE

_____

1 _____ **2** _____ **3** _____ **4** _____

Team of up to 4; solo welcome. Still looking? Post your final line in the Builders Cafe WhatsApp.
